

## **ECO DRIVE EDST SMART** **Tool for screwing Eco Drive Anchors**

USAGE: Tool EDST for immersed mount of fasteners for fastening of thermal insulation material. EDST – for screwing in fastener types: ECO-DRIVE, ECO-DRIVE S, DRIVE-S. Installation of fasteners using tool EDST and polystyrene discs (EDKS/EDKSG) minimizes spot thermal conductivity of fasteners and makes preparation of surface for final finishing of the façade much easier and faster.
