

TT60 INSULATION HOLDER

USAGE:

The TT insulation holder is designed for anchoring thermal insulation boards to structural panels or solid wood.

Holder	Diameter (mm)	Thickness (mm)	Packaging (pc)
TT60x5	60	5	100

ADVANTAGES:

Plate Diameter: Available in 60 mm.

Thermal Bridge Interruption: Option available for enhanced insulation.

Screw Compatibility: Suitable for screws with a diameter of 4-5 mm.

Easy and Quick Installation: Simplified mounting process.

INSTALLATION:

Positioning: Place the plate using a screw suitable for the underlying material.

Piercing: Pierce the insulant with the screw until it reaches the base, then screw it in so that the plate surface is flush with the surface of the thermal insulation board.

Note: Screws are not included in the package.

MATERIAL:

Impact-resistant Polypropylene

PACKAGING, STORAGE, AND TRANSPORT: Packaged in bags or paper boxes. Store in a dry, sheltered place.
