

Leveling blocks

Leveling blocks are used in the installation of wooden, aluminum and PVC windows. They are also used in plaster and facade work and door installation. With the help of leveling blocks, it is easy to align different frameworks, frames, profiles and details.

Leveling block	Length (mm)	Width (mm)	Thikness (mm)	Package (pc)
LKL1.50	100	30	1	50
LKL2.50	100	30	2	50
LKL3.50	100	30	3	50
LKL4.50	100	30	4	50
LKL5.50	100	30	5	50
LKL6.50	100	30	6	50
LKL8.50	100	24	8	30

ADVANTAGES

- Leveling blocks in different sizes allow precise alignment
- The products are made of durable plastic
- Easy to use

MATERIAL

PVC

STORAGE

Keep dry and protect from prolonged sunlight and heat.
